1. Summary of Discussion

During the meeting, the introduction section of the thesis was discussed. The already written parts were reviewed, including the background of the study, research objectives, research questions, and the definition of the research object and subject. The overall structure and direction of the introduction were checked and clarified.

2. Supervisor Feedback & Recommendations

It was agreed that for the next meeting, the research objectives need to be revised and refined, and new research questions should be formulated accordingly. In addition, satellite data preparation should be carried out, and the methodology chapter should be partially completed, focusing on data sources and preprocessing steps.
